

Water splashes

Rain

Strong exposure to water

Submersion in water

Snorkeling

Scuba diving (unidirectional turning bezel)

Compression diving (unidirectional bezel + helium escape valve)

Water Resistance

Watches water resistant to 30m and 50m are protected against:

Watches water resistant to 100m, 120m and 150m can be used for water surface activities and are protected against:

Watches water resistant to 200m, 300m, 600m and 1200m, with unidirectional turning bezel, can be used for deep-sea diving and are protected against:

A watch's water-resistance cannot be permanently guaranteed. It may notably be affected by the ageing of gaskets or by an accidental shock to the crown. As stipulated in our service instructions, we recommend you have the water resistance of your watch checked once a year by an authorised OMEGA Service Centre.
